In the afternoon the market rescred sharply and the closing was weak at about the lowest prices with the leading stocks all showing breaks of from one to three points. There was no news to account for the selling and the built leaders seamed surprised by it. Hutton, New York, says. The market generally speaking could be tocked at as having a firm tone, with a insticuable absence of pressure to sell stocks and operations in most of the neither stocks like Union Pacific showed the greatest decline. This was undoubtedly caused by lack of sumpert around the opening figures and traders finding this a vulnerable spot took opportunity to hamour, this becurity, which would influence values greatly. NO CURE-NO PAY

I don't want money that I don't earn. I don't need it, and am not after it. But I am after the dollars that are now going wrong in the quest of health. Look at all these poor wreeks of humanity that are spending all they earn on drugs—dope that is paralyzing their vital organs—that have spent all they have earned for years without gaining a pound of years without gaining a pound of strength for the hundreds of dollars

wasted.

That is the money that I am after, because for every dollar I take I can give a thousand per cent interest, and I don't want it at all until I have cured you, if you will seeme me. I have cured so many cases right here that I can prove my claims to you, but if that proof is not enough I'll cure you before you pay me. Is that fair?

Wherever you are, I think I can give you the name of a tran in your town that I have cured. Just send me your address and let mo try. This is not twenty-fourth year in the business of pumping new vim into wornout humanity and I've got cures in nearly every town on the map.

Come and wee me if you can and I'll fix you up, or, if you can't call, write to me and I'll do the same. I've got a nice book on men that I'll send sealed, free, if you inclose this ad.
